Postage and Packing Charges

The charges on one division of any size (or root of any size) will be 10c. The charges on two divisions or roots will be 12c, on three roots or divisions 14c, on four roots or divisions 16c, and one cent for each additional root or division.

These charges may appear too large in the first, second, third and possibly fourth zones but customers living in the fifth, sixth, seventh, and eighth zones will probably notice that on some packages the charges were higher than the amounts noted here. We hope we will remember to place an additional division or two in each package to equalize packing charges.
